
State Schools' Relief now providing Graphing Calculators

State Schools' Relief now provide graphing calculators for senior students completing Science, Technology, Engineering and Mathematics (STEMs) subjects.

Without a graphing calculator disadvantaged students are unable to participate in some STEMs subjects. To assist students to continue their education, State Schools' Relief now provide a **Casio OR Texas** Graphing Calculator for each student requiring one.

This opportunity is available to any student based on the normal assessment of student need conducted in your school.

Applications can be made now by your welfare team through our online application portal www.ssr.net.au/schools

1/8 Johnston Court Dandenong, VIC, 3175
